

## MediHerb products are NOW available in Canada

Assoc Prof Kerry Bone  
MediHerb Co-Founder and  
Director of Research and  
Development

Dear Practitioner

I am delighted to announce the launch of MediHerb in Canada through ProMedics. MediHerb and ProMedics share the same philosophy of excellent customer service, technical support and groundbreaking educational seminars.

Initially you will receive in the mail a product brochure highlighting some of the products available from MediHerb. If you would like a catalog and further information please contact ProMedics. We hope that you find some of your herbal favorites and you will see some novel formulations in tablets that have proven to be very effective with my patients.

We will be expanding the product line over time, so please advise ProMedics of your favorite MediHerb products you would like to have available.

I look forward to seeing you when I am in Canada and our working together over the coming years.

Yours in health

Associate Professor Kerry Bone
